PROFESSIONAL SUMMARY

Motivated BCA student and aspiring Frontend Developer with hands-on experience building responsive and interactive web applications using HTML5, CSS3, JavaScript, React.js, React Router, Styled Components, Bootstrap, and Tailwind CSS. Developed real-world projects featuring authentication, routing, state management, and responsive UI design. Passionate about creating user-friendly web experiences and eager to begin a career as a Frontend Developer while contributing to a collaborative development team.

TECHNICAL SKILLS

Languages: Python, JavaScript

Tools & Platforms: Git, GitHub, VSCode, Firebase

Backend: Node.js

Frontend: React.js , React Router , Styled Components, HTML5, CSS3, Responsive Web Design, GSAP, Bootstrap, TailwindCSS,

Database: MySQL , MongoDB

PROJECTS

SugarBloom– E-commerce Cake Shop <https://sugarblooml.netlify.app/>

Mar 2026 - Present

React.js, React Router, Firebase (Authentication + Database), Styled Components

- Developed a fully functional e-commerce web application for a cake shop featuring 100+ products across 12+ pages
- Implemented user authentication system including SignUp and Login functionality using Firebase Authentication
- Built dynamic cart functionality allowing users to add, remove, and manage cake orders seamlessly
- Developed product search functionality enabling users to filter and find cakes quickly and efficiently
- Designed and structured client-side routing using React Router for smooth multi-page navigation
- Created responsive and visually appealing UI using Styled Components ensuring consistent design across all pages

RollX-Interactive Dice Game Application <https://rollx.netlify.app/>

Feb 2026 - Mar 2026

React.js, Styled Components, React Hooks (useState)

- Developed an interactive single-player dice game using React.js with a clean and intuitive user interface
- Implemented core game logic where players select a number (1–6), roll the dice, and earn points on correct guesses with a 2-point deduction for wrong guesses
- Managed real-time core tracking and dynamic dice rendering using React state and hooks
- Added a Reset Score feature and a game rules section to enhance user experience
- Deployed the application live on Netlify making it publicly accessible

EDUCATION

Techno India University

BCA–Bachelor of Computer Applications

2023-2027

CGPA: 8.38 (Till 5th Sem)

Madhyamgram Girls' High School

XII (WBCHSE)

2023

80.0%

X (WBBSE)

2021

65.1%
